

NYSGIS Association Southern Tier Region

Kickoff

The New York State Geographic Information Systems Association is your Professional Association in New York State.

- 501-c Not-for-Profit Organization that exists to represent NYS GIS professional goals and interests
- Members are Professionals from government, industry/business & academia
- Advocate the profession through scholarships, certifications, continuing education, GISP and other professional development opportunities
- Forum to meet and network on a regular basis (Geospatial Summit, NYSGIS Conference, etc.)

The NYSGIS Association's Southern Tier Region held numerous, successful GIS events for years.

And then there was a gap in time...

But now it's back

And you can be part of the action...

Our Mission:

THE NYSGISA Regional Coordination Program provides a conduit for communication between the Association and regional affiliates/chapters/related groups, and promotes the Association's mission to support statewide development of GIS.

Our Mission: In other words

Geospatial Networking !!!

Social Opportunities

Geospatial

Whine and Brew:

Discuss your geospatial hiccups and successes at local venues after hours, and perhaps find some insight from your GIS colleagues.

Educational Opportunities

Geospatial talks:

We are going to coordinate with the SynerGIS leadership to bring back the Brown Bag forum series on a regular basis.

Professional and Volunteer Opportunities

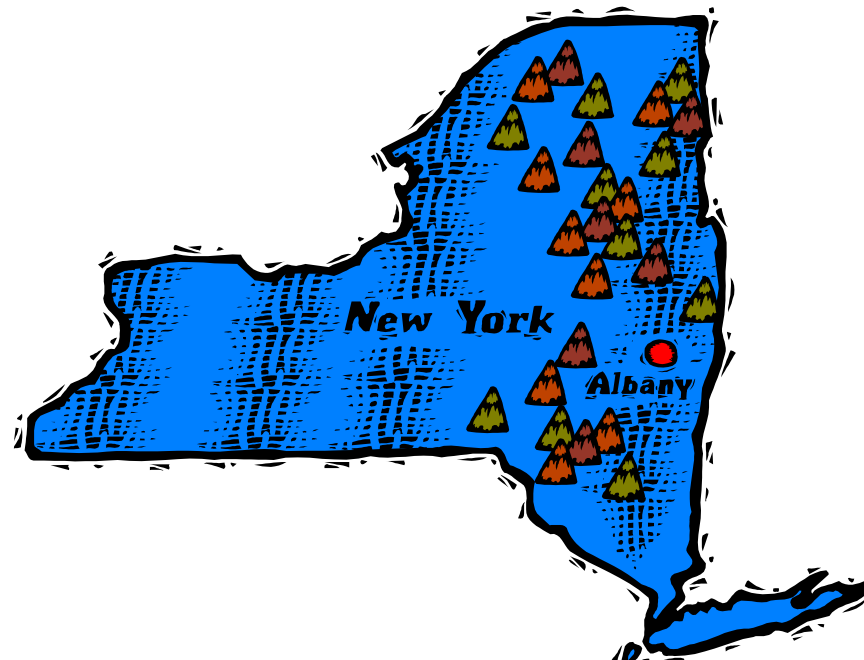

Enhanced Partnerships:

We are going to pursue relationships with Regional Educators, Non-Profit Volunteers, and Private Sector Professionals who are using and/or want to learn more about Geospatial Technologies.

OUR FIRST ADVENTURE

The NYSGISA Education Committee recently facilitated an agreement between Esri and NYS to get free Esri site licenses for K-12 programs throughout the entire state.

OUR FIRST ADVENTURE

These free licenses are available to:

All public and private schools providing education in grades K–12, including charter schools, technical schools, magnet schools, Montessori schools, religious schools, Home schools, etc.

Local chapters of recognized national youth programs, including but not limited to 4–H, FFA, Boy Scouts, Girl Scouts, Boys and Girls Clubs; other youth–serving clubs

School districts and clubs will also be able to use these licenses for non–commercial administrative uses, such as bus routing or facilities management.

OUR FIRST ADVENTURE

We will introduce ourselves to our local Educators, through an awareness campaign.

****Who are we****

****What do we do****

****How can we help****

We will then help interested parties obtain the Esri license, other available GIS tools, and educational opportunities.

If you would like to be a part of the
action...
